Grant Proposal Writing Workshop

23-24 May 2022

The Research Support Centre (RSC), University of Zimbabwe Faculty of Medicine and Health Sciences is delighted to announce a virtual 2-day Grant Proposal Writing Workshop on the 23-24 May 2022.

Target Group

Early career researchers including junior faculty, postgraduate students and anyone involved in Grant Proposal Writing who would like to build her/his skills in Grant Proposal Writing. Those who have already identified a call for proposal and are interested in responding or already have a proposal idea are strongly encouraged to apply so they can build upon it during the workshop.

Course Description

The workshop aims to enable early career researchers to build skills to develop grant winning proposals. The workshop will be interactive and hands-on covering the following topics:

- Identifying and interpreting funding opportunities
- Funding agents and their requirements: NIH, EU/EDCTP, WHO-TDR
- Overview of the grant proposal writing process.
- Key elements of successful grant proposals
- The do's and don'ts of grant writing
- Formulating statement of the problem, research questions, aims/objectives and research plan for a grant proposal
- How to craft a convincing budget
- Ethical considerations
- Administrative issues

Venue: Virtual

Time: 09:00:00 – 13:00hrs
