

Scientific Writing Workshop

**Research Support Centre
University of Zimbabwe Faculty of Medicine and Health Sciences
(10-14 October 2022)**

The University of Zimbabwe Faculty of Medicine and Health Sciences (UZFMHS) Research Support Centre (RSC) with funding from the PERFECT program is delighted to announce the **Scientific Writing Workshop** 5-day workshop on 10-14 October 2022. The purpose of the workshop is to strengthen scientific writing skills for post-graduates, researchers, and faculty.

Course Description: Scientific writing includes discourse between professional scientists, such as peer-reviewed journal articles. By the end of this course, you should be able to:

1. Recognise the major sections of a scientific article (the nuts and bolts of format and content of each section of a paper)
2. Write at least an outline for an article, and preferably a full article for publication, with each section being clear and concise.
3. Select and prepare the most appropriate way to present your results.
4. Use and record reference articles in a correct, clear, and efficient way.
5. Criticise the draft articles prepared by yourself and your colleagues in a constructive way.
6. Be aware of ethical issues in publication and of the need to follow good research practice in publication of your research findings

20 full scholarship places are available, and these will be allocated to applicants who meet the eligibility criteria.

Eligibility Criteria: Researchers, faculty, and postgraduate students who.

- Have completed research data collection
- Have completed data analysis
- **A first of a draft manuscript** for publication
- Completed data analysis and wants to start writing the manuscript
- Are committed to full participation for the five (5 days)
- Are committed to publishing in a peer review

Venue: University of Zimbabwe Faculty of Medicine and Health Sciences (UZFMHS), Research Support Centre.
